Bangor
3589.

Oct 9. 1865.

William Jones -

I hear that there are many
persons in Wylthead anxious
to form a company to bring
water into the Town for the
Mountain Springs at Tur.
all the levels & Engineering
work & plan is made
by Messrs Easton and Ames.
and I have paid for them.
I should give them to any
company without charge

Bangor

3589

If a company can be formed
I am willing to take shares
to the amount of 2000 £

Mr Eckett will let any
parties see the plans
& estimates for the work
but they are open to
revision. if any better plan
can be suggested by any
competent Engineer -
if on full consideration

Bangor

3589

You find parties willing
to join me in forming a
Company. Get the names
and amounts that
each person will take
and let me know as soon
as you can, the money new
& Superior Homes that have
been built since 1854
will afford more revenue
than we calculated upon
the Homes in the former bill
but I have little fear but

Bangor

3589

a Water Company must pay
 in a very few years if not
 the first year or two -
 when persons once find the

benefit, in saving expenses
 & the comfort & health of
 good water & water closets
 they will be only too glad
 to obtain water -

The water about to be brought
 from the lakes by the L & N W.
 is not in my opinion wholesome
 for domestic use, & I much
 doubt that there will be sufficient
 for the Companies use -
 W^m Stanley
