My Dear Sister

I have received your letter a few days ago, and was very glad to learn that you were quite well, and I am happy to say this leaves me also the same at present. I feel greatly obliged to you for your kind enquiries respecting whether I had received the money from home p.t., and I am happy to inform you that I have received them, 2 or 3 weeks ago, and am not at present in want of any. I hope for a while, I have received a letter from home just now, they are all quite well there, and my Aunt of Nebo, Anne Humphreys, is now very much better, and continues to get better every day, so I should think that she is now out of every danger;
